Frontend	HTML5, CSS3, JavaScript, Bootstrap, jQuery, React
Backend	Python, Django, Django REST Framework, REST APIs
Database	MySQL, SQL
Tools	Git, GitHub, VS Code, Figma (learning)
AI Tools	Claude Code, Codex
Soft Skills	Problem Solving, Team Collaboration, Communication, Quick Learning, Time Management

PROJECTS

GREEN BITES | *Restaurant Website*

- Designed a responsive multi-page restaurant website with Home, About, Menu and Contact pages that work smoothly on both mobile and desktop.
- Added a category-wise menu filter, an add-to-cart option and a contact form with client-side validation to check user input.
  Tech: HTML, CSS, JavaScript, Bootstrap

SHOP ZONE | *E-commerce Website*

- Created a responsive online shopping website with product search and category filter to help users find products quickly.
- Built a shopping cart with add, remove and quantity update options, and a checkout form with validation to collect customer details.
  Tech: HTML, CSS, JavaScript

MyBank | *Banking Web Application*

- Developed a responsive banking website with user signup and login, where each user gets an account with a unique account number.
- Built a dashboard for deposits and withdrawals with balance updates and transaction history, plus form validation for age, phone number and password.
  Tech: HTML, CSS, JavaScript

MediTrack | *Medicine Inventory System*

- Built a full-stack medicine inventory system with Django, Django REST Framework and a relational database.
- Designed RESTful APIs for medicine CRUD operations, stock tracking and search.
- Implemented real-time stock updates using Django Channels and WebSockets, so changes appear instantly across all connected users.
  Tech: Python, Django, DRF, Django Channels, WebSockets

INTERNSHIP EXPERIENCE

Advanced Python FullStack Web Development Certification, IPCS Global Trivandrum **2026**

- Completed a 6-month intensive course covering front-end and back-end web development technologies.
